Experience

Senior Software Engineer

Oct 2023 – Present

HCL Tech.

- Developed and maintained **3+ enterprise healthcare applications** for Tenet Healthcare using ASP.NET Core MVC, Razor Pages, REST APIs, SQL Server, and Onion Architecture, delivering **20+ feature enhancements** across multiple releases.
- Optimized backend performance by replacing in-memory filtering with Entity Framework **IQueryable**, reducing API response time by up to **65% (3× faster)** for large datasets and improving overall application scalability.
- Strengthened backend reliability by implementing JWT authentication, role-based access control, and a multithreaded ETL pipeline that processed upstream data every 15 minutes, enabling faster data synchronization and improved system scalability.
- Provided end-to-end production support for enterprise healthcare applications, resolving **150+ production defects** through detailed root cause analysis (RCA) and permanent code fixes while maintaining high application availability and release stability.
- Developed the PBAR wireframe within **one week**, enabling successful client demonstrations that contributed to winning a new business engagement and receiving direct client appreciation.

Software Development Intern

Feb 2023 – Apr 2023

LTIMindtree, [Certificate](#)

- Developed a full-stack Flight Booking System using ASP.NET Core MVC, C#, SQL Server, and Razor Views, implementing user authentication, flight search, booking, fare calculation, and cancellation workflows.
- Designed RESTful APIs and optimized database operations using SQL Stored Procedures while applying MVC architecture and SOLID principles, Middleware, Dependency Injection to build modular, maintainable backend components.

Technical Skills

Languages	C#, SQL, JavaScript, Angular, JQuery
Backend	ASP.NET Core, MVC, Razor Pages, EF Core, REST APIs
Architecture	Monolithic, Onion Architecture, SOLID Principles
Tools	Git, Azure DevOps, Postman, AutoMapper
Fundamentals	API Integration, JWT, OOPs, SDLC, RCA, Performance Optimization
Familiar With	Microservices, Docker, Kubernetes, GitHub Actions, RabbitMQ, CI/CD

Education

Bachelor of Technology in Information Technology

Aug 2019 – Aug 2023

Galgotias College of Engineering & Technology

CGPA: 8.4/10

Certifications

AZ-900 Microsoft Azure Fundamentals

Microsoft Generative AI Fundamentals

Participated in internal GenAI Hackathon developing an SDLC automation assistant.
